TWO-PAGE SPREAD

Trim size: W 16.75" x H 10.875"
 With Bleed: W 17" x H 11.125"
 Safe Area: Min. 0.25" from trim
 0.5" from gutter

TRIM SIZE:

- Actual size of the magazine pages (edge to edge).
- This is the specification that the design file should be set up as

BLEED:

- 0.125" around all edges
- Artwork should extend all the way to the edge of the bleed area to avoid a white border around the edges during the trimming process.
- Make sure when exporting to a PDF from the design file to use the document bleed settings

SAFE AREA:

- A safe area is required on all ads to ensure that all text and art elements are placed inside this area to avoid being trimmed.

PRODUCTION REQUIREMENTS

- Ensure that all images placed in or provided for ads are color-corrected, high-resolution (300 dpi at 100% size) CMYK files
- Outline all text and embed all high-res images
- Convert all RGB, spot colors, lab colors and Pantone to CMYK
- Adjust the trapping settings accordingly. Turn off the overprint setting on all text and art elements unless overlapping colors are intended.
- Turn off all print/crop marks

FILE FORMATS

- PDF
- Color format CMYK only
- 300 dpi at 100% (high resolution)
